

BMS

INSTITUTE OF TECHNOLOGY AND MANAGEMENT

An Autonomous Institute Under VTU, Accredited by NBA and NAAC
Yelahanka, Bengaluru-560119.

Volume - 12, Issue – 05 Monthly Newsletter / May - 2026

BMS
INSTITUTE OF TECHNOLOGY AND MANAGEMENT

Dharmaprakasha Rajakarya Prasakta
LATE SRI. B. M. SREENIVASAIAH
Founder
BMS College of Engineering

LATE SRI. B. S. NARAYAN
Founder
BMS Educational Trust

Vision
To emerge as one of the finest technical institutions of higher learning, to develop engineering professionals who are technically competent, ethical and environment friendly for betterment of the society.

Mission
Accomplish stimulating learning environment through high quality academic instruction, innovation and industry-institute interface.

EDITORIAL BOARD
Dr. Usha B A, Dean (Students' Welfare)
Dr. Surekha R Gondkar, Assoc. Prof., Dept. of ECE
Dr. Shanthi D L, Assoc. Prof., Dept. of ISE
Ms. Vishishta Shenoy, 1BY22AI123
Ms. Varsha B, 1BY23CS260
Ms. Arpitha Pandit, 1BY23CV010
Mr. Harsh Kumar, 1BY23CB021
Mr. K Sujith, 1BY23EC053
Mr. Nithin Shetty L, 1BY24EE402
Ms. Jiya Kulkarni, 1BY23ET023
Ms. Kalpitha Naik, 1BY23IS259
Ms. Bhoomika K B, 1BY22ME008
Ms. Krishna Priya R, 1BY24BA037
Mr. Yogin N C, 1BY23MC110

Faculty as Resource Person

- Prof. Praveen Kumar T. N., Associate Professor, Department of Mechanical Engineering, served as the Resource Person for a workshop on "Protecting Intellectual Property and Intellectual Property Management for Startups" organized by CMR Institute of Technology on 20.05.2026. The session focused on the importance of intellectual property protection and effective IP management strategies for start-up ventures.
- Dr. Shivakumara T, Associate Professor, Department of MCA, attended as External BoE Member for BCA & BSc QP Scrutiny, SoCSA, Reva University, Bengaluru on 08.05.2026.
- Dr. Aparna K, Professor, Department of MCA, has been inducted as a Member of the Board of Studies (BoS) for the School of Information Sciences at Presidency University Bengaluru for the Academic Year 2026–27. This appointment recognizes her academic expertise and contributions to the field of Information Sciences.
- Prof.S.Mahalakshmi, chaired a session on 6th International Conference on Artificial Intelligence-driven Computing, Analytics, and Networks(ICAN 2026) by Chitkara University, Punjab on May 15-16, 2026.

- Dr. HemaMalini B H, Professor, Department of AIML, was invited as a Board of Examiners (BoE) Member by the Department of CSE (AI & ML) at M. S. Ramaiah Institute of Technology on 07.05.2026.

Faculty Awards

- Dr. M. Sridevi, Assistant Professor and Head of the Department of MCA, achieved a significant academic milestone by receiving her Master's degree in Data Science from Liverpool John Moores University on 16.05.2026. During the convocation ceremony, she was also honoured with a Special Award in the High Achievement Category, presented by Prof. Paul A. Townsend, in recognition of her outstanding academic performance.

- Dr. HemaMalini B H, Professor, Department of AIML, was felicitated with the "Shikshaka Ratna" award by Axis Max Life Insurance on 06.05.2026 during the Mother's Day celebrations, in recognition of her contributions to education and academic excellence.

Reviewer

- Dr. Babu Naik Gugulothu, Assistant Professor, Department of Electrical and Electronics Engineering (EEE), served as a reviewer for a Springer Nature journal in the field of Electrical Engineering during May 2026. He successfully reviewed two research manuscripts, contributing to the peer-review process and upholding the quality and integrity of scholarly research.
- Dr. Shivakumara T, Associate Professor, Department of MCA, has served as Review Committee Member for the International Conference on Electrical, Computer, Communications and Mechatronics Engineering (ICECCME 2026), Kalbis University, Indonesia ICECCME 2026 Conference Chair, on 17.05.2026.

Out Reach Activity:

- The Rotaract Club of BMS Yelahanka organized a ration kit distribution drive on 31.05.2026 in the slum areas of Avalahalli and Nagenahalli. The initiative benefited over 200 individuals from 60 families, with the distribution of 300+ kg of atta, 60 kg of dal, and 60 litres of oil, supporting the local community through essential supplies.

- The TEDxBMSITM Pre-Event – InsideX was successfully conducted on 22.05.2026 at the BMSITM campus. Supported by KNS Infra and Edusutra, the event featured interactive games, food stalls, stand-up comedy, influencer interactions, and live music performances. Popular Kannada comedians Nithin M. Kamath and Ganesh Kashyap entertained the audience with a comedy show, followed by an engaging session by Yogish G (@street.comic). The event concluded with a vibrant performance by RUSHANG, the college music club. Coordinated by Dr. Tejaswini B. J., HoD, HSS, and the TEDx student team, the event fostered student engagement and provided valuable event management experience.

Faculty Achievements

- Prof. Manjunath P. V., Assistant Professor, CSE Division 5, successfully completed the NPTEL course “Mathematical Foundations of Machine Learning” offered by Indian Institute of Science, securing 57% and earning the certification.

- Prof. Shweta Prabha, Assistant Professor, CSE Division 5, successfully completed the NPTEL course "Introduction to Machine Learning" offered by Indian Institute of Technology Madras, securing 55% and earning the certification.
- Dr. Bhuvaneswari Melinamath, Professor, CSE Division 5, successfully completed the NPTEL course "Joy of Computing Using Python" offered by Indian Institute of Technology Madras, securing 86% and earning the certification.
- Dr. Archana R, Associate Professor, Department of CSBS, successfully completed the NPTEL course "Introduction to Internet of Things" during January–April 2026, securing an impressive 93% and achieving a Top 1% rank among 43,953 certified candidates.
- Dr. Pavan G. Malghan, Assistant Professor, Department of ECE, successfully completed the NPTEL course "Neural Networks for Computer Vision and Natural Language Processing" during January–April 2026, securing an Elite certification with a score of 82%.
- Prof. Manjula B. K., Assistant Professor, Department of Electrical and Electronics Engineering (EEE), successfully completed a course "Project Management" during the February–April 2026 session. She secured 82% and earned the Elite Silver certification.
- Dr. G. Raghavendra, Professor, Department of Electrical and Electronics Engineering (EEE), successfully completed the 12-week NPTEL course "Introduction to Internet of Things" during the January–April 2026 session. He secured 80% and earned the Elite Silver certification.
- Dr. Aparna K, Professor, Department of MCA, has successfully qualified in NPTEL online course on "Natural Language Processing" with a score of 75% (Elite with Silver Medal) by IIT-Kharagpur.
- Prof. K. Chandra Sekhara Reddy, Faculty Member, successfully completed the NPTEL course "Advances in Additive Manufacturing of Materials: Current Status and Emerging Opportunities" during the January–April 2026 session with a score of 87%.
- The Department of Electrical and Electronics Engineering (EEE) bid a warm farewell to Dr. Mamatha N. on 30.05.2026. Faculty members and staff gathered to acknowledge and appreciate her dedicated service, valuable contributions, and commitment to the department over the years, wishing her success in her future endeavours.

- Dr. Seema Singh, Professor, Department of Electronics and Communication Engineering (ECE), BMSIT&M, and Founder of DostBin Solutions, authored an article titled "Decentralized Waste Management as India's Key to Sustainability" published in the May 2026 issue of The Industry Outlook. The article highlights the potential of decentralized waste management practices, such as hyperlocal composting and biomethanation, in addressing India's growing waste challenges while promoting sustainability, employment generation, and circular economy opportunities.
- Dr. Nagamadhu M, Department of Mechanical Engineering, successfully completed two NPTEL courses — Manufacturing Process Technology I & II (NOC26-ME47) with a score of 62 and Advances in Additive Manufacturing of Materials (NOC26-MM14) with a score of 83, during the Jan–April 2026 Session.
- Prof. Sundaresh S., Faculty Member, Department of Mechanical Engineering, successfully completed the NPTEL course "Advances in Additive Manufacturing of Materials: Current Status and Emerging Opportunities" during the January–April 2026 session with a score of 75%.

- Dr. Manjunatha C., Faculty Member, Department of Mechanical Engineering, successfully completed three NPTEL courses during the January–April 2026 session. He secured 70% in "Cloud Computing," 63% in "Artificial Intelligence (AI) for Management," and 72% in "Advances in Additive Manufacturing of Materials".
- Dr. Kiran M. D., Faculty Member, Department of Mechanical Engineering, successfully completed the NPTEL course "Data-Enabled Tribological Engineering: From Experiments to Predictive Models" during the January–April 2026 session, securing 63%.
- Dr. O. Gurumurthy, Faculty Member, Department of Mechanical Engineering, successfully completed two NPTEL courses during the January–April 2026 session. He secured 79% in "Advances in Additive Manufacturing of Materials: Current Status and Emerging Opportunities" and 71% in "Computer Integrated Manufacturing: From Concepts to Implementation".
- Prof. Spurthy S N, Assistant Professor, Department of MCA successfully completed the Human–Computer Interaction course with a score of 93% in the NPTEL Online Certification program for the 12-week session conducted from January to April 2026.
- Prof. Ashwitha K, Assistant Professor, Department of MCA successfully completed the Introduction to Large Language Models(LLMs) course with a score of 60% in the NPTEL Online Certification program for the 12-week session conducted from January to April 2026.
- Dr. Sridevi M, Assistant Professor and Head of the Department of MCA, attended the Liverpool John Moores University Basecamp at the Radisson Blu Atria Bengaluru on 17.05.2026. The event focused on fostering research collaborations and student exchange opportunities. Representatives from Liverpool John Moores University, including Jacqui Wright, Prof. Dhiya Al-Jumeily, and Prof. Mohamed Mahyoub, participated in the discussions.

- Dr. Swetha M S, Associate Professor, CSE Division–4, successfully completed two NPTEL certification courses during the January–April 2026 session. She earned Elite Gold certification with 90% in the 12-week course Business Fundamentals for Entrepreneurs and completed the 8-week Database Management Systems course with a score of 60%. She also attended the Faculty Enablement Program (FEP) on Cyber Security, organized by Infosys, from 18.05.2026 to 21.05.2026, enhancing her expertise in emerging technology domains.
- Prof. Annapareddy Haarika, Assistant Professor, CSE Division–4, successfully completed two NPTEL certification courses during the January–March 2026 session. She completed the 8-week Database Management Systems course with a score of 57% and the 12-week Introduction to IoT course with a score of 75%, demonstrating her commitment to continuous learning and professional development.
- Prof. Bhavya G, Assistant Professor, Division-4 has successfully completed NPTEL Course "Machine learning for Engineers and Science Application" a 12 week course with Elite Silver secured 77% for Jan-Apr 2026 Session.
- Prof. Spandana L, Assistant Professor, Division-4 has successfully completed NPTEL Course "Machine learning for Engineers and Science Application" a 12 week course with Elite Silver secured 75% for Jan-Apr 2026 Session.
- Dr. Savitha S, Associate Professor, Division-4 has successfully completed NPTEL Course "Machine learning for Engineers and Science Application" a 12 week course secured 68% for Jan-Apr 2026 Session.
- Prof. Malini.M , Assistant Professor, CS Division-4, has successfully completed NPTEL Course Database Management Systems, 8 week Course,secured 71 % for Jan-March 2026 Session.

- Prof.S.Mahalakshmi, Assistant Professor, CS Division-4, has successfully completed NPTEL Course Database Management Systems, 8 week Course with Elite Silver(topper 2%) ,secured 81 % for Jan-March 2026 Session.
- Dr. Shanthi D L, Associate Professor, CSE Division-4, has successfully completed NPTEL Course Blockchain and its Applications, 12 weeks course, secured 73% for Jan-April 2026 session.
- Prof. Geetha P L, Assistant Professor, CSE, Division 4, has successfully completed NPTEL Course on "Problem Solving Through Programming In C", 12 weeks course with Elite, secured 66% for Jan-Apr 2026 session.
- Dr. Rajesh Gopinath, Professor, Department of Civil Engineering, successfully completed two SWAYAM online courses during 2026: Environmental Planning and Management offered by Indian Institute of Technology Roorkee (February–April 2026) and Environmental Science offered by Indian Institute of Technology Kharagpur (January–April 2026), demonstrating his commitment to continuous learning and professional development.
- Ms. Shimna M. Assistant Professor, Department of Civil Engineering successfully completed the SWAYAM Online Course on Environmental Science offered by Indian Institute of Technology, Kharagpur during January–April 2026.
- Dr. Athiyamaan V. Assistant Professor, Department of Civil Engineering successfully completed the SWAYAM Online Course on Outcome-Based Pedagogic Principles for Effective Teaching offered by Indian Institute of Technology, Kharagpur during February–March 2026.
- Ms. Archana K. Assistant Professor, Department of Civil Engineering successfully completed the SWAYAM Online Course on Environmental Science offered by Indian Institute of Technology, Kharagpur during January–April 2026.
- Dr. Lalit Kumar Gupta Assistant Professor, Department of Civil Engineering successfully completed the SWAYAM Online Course on Construction Management offered by Indian Institute of Technology, Kanpur during February–April 2026.
- Dr. Marsh Bandi Assistant Professor, Department of Civil Engineering successfully completed the SWAYAM Online Course on Construction Management offered by Indian Institute of Technology, Kanpur during February–April 2026.
- Mr. Upendra B. A. Assistant Instructor, Department of Civil Engineering successfully completed the SWAYAM Online Course on Geotechnical Engineering–I offered by Indian Institute of Technology Bombay during January–April 2026.
- Mr. Sudhakar G. Assistant Instructor, Department of Civil Engineering successfully completed the SWAYAM Online Course on Remote Sensing and GIS for Rural Development during January–April 2026.
- Dr. Vinutha K, Associate Professor, CSE–Division1, successfully completed the NPTEL Online Certification course on "Machine Learning for Engineering and Science Applications" during the January–April 2026 session. She earned the Elite certification with a score of 70%, reflecting her commitment to continuous learning and professional development.
- Prof. Arpitha S, Assistant Professor, CSE–Division1, successfully completed the NPTEL Online Certification course on "Advanced Computer Architecture" during the January–April 2026 session. She earned the Elite certification with a score of 73%, demonstrating her commitment to continuous learning and academic excellence.
- Prof. Manjula S D, Assistant Professor, CSE–Division1, successfully completed the NPTEL Online Certification course on "Compiler Design" during the January–April 2026 session. She earned the Elite certification with a score of 69%, reflecting her dedication to continuous learning and professional growth.

- Prof. Tresa Maria Josylin, Assistant Professor, CSE–Division1, successfully completed the NPTEL Online Certification course on "Introduction to LLM" during the January–April 2026 session. She earned the Elite certification with a score of 70%, showcasing her commitment to advancing her knowledge in emerging technologies and artificial intelligence.
- Prof. Aruna N, Assistant Professor, CSE–Division1, successfully completed the NPTEL Online Certification course on "Cloud Computing" during the January–April 2026 session. She earned the Elite certification with a score of 66%.
- Prof. Shilpa M, Assistant Professor, CSE–Division1, successfully completed the NPTEL Online Certification course on "Blockchain and its Applications" during the January–April 2026 session. She earned the Elite certification with a score of 64%.
- Dr. Dhanalakshmi B K, Associate Professor, CSE–Division1, successfully completed the NPTEL Online Certification course on "Introduction to Internet of Things" during the January–April 2026 session. She earned the Elite certification with a score of 75%.
- Mr. Liju C, CSE–Division1, successfully completed the NPTEL Online Certification course on "Introduction to Industry 4.0 and IoT" during the January–April 2026 session. He earned the Elite certification with a score of 70%, reflecting his commitment to continuous learning and upskilling in emerging technologies.
- Dr. Niranjana Murthy M, Associate Professor, Department of AIML, successfully completed the NPTEL course "Edge Computing" with an Elite certification, securing a consolidated score of 72%.
- Dr. Kantharaju V, Associate Professor, Department of AIML, successfully completed the NPTEL courses "Blockchain and its Applications" and "Cloud Computing", earning Elite certifications with consolidated scores of 71% and 67%, respectively.
- Prof. Ashwini S S, Assistant Professor, Department of AIML, successfully completed the NPTEL course "Problem Solving Through Programming in C", securing a consolidated score of 56%.
- Prof. Salma Itagi, Assistant Professor, Department of AIML, successfully completed the NPTEL course "Data Mining" with an Elite certification, securing a consolidated score of 76%.
- Prof. Pavan Mulgund, Assistant Professor, Department of AIML, successfully completed the NPTEL course "Edge Computing" with an Elite certification, securing a consolidated score of 85%.
- Prof. Pragathi M, Assistant Professor, Department of AIML, successfully completed the NPTEL course "Edge Computing" with an Elite certification, securing a consolidated score of 85%.
- Prof. Indumathi S, Assistant Professor, Department of AIML, successfully completed the NPTEL course "Edge Computing" with an Elite certification, securing a consolidated score of 84%.
- Prof. Pavitra G, Assistant Professor, Department of AIML, successfully completed the NPTEL course "Introduction to Machine Learning", securing a consolidated score of 50%.
- Mr. Harish S, Assistant Instructor, Department of AIML, successfully completed the NPTEL course "Introduction to Industry 4.0 and Industrial Internet of Things" with an Elite certification, securing a consolidated score of 77%.
- Mrs. Mamatha K B, Assistant Instructor, Department of AIML, successfully completed the NPTEL course "Introduction to Internet of Things", securing a consolidated score of 62%.

Events Conducted

The Advanced Robotics and Mechatronics Systems (A.R.M.S) Club was inaugurated on 21.05.2026 at the Seminar Hall, Sir M. Visvesvaraya Block, BMSIT&M, Bengaluru. The event was hosted by Nethanya G H and graced by Chief Guest Mr. Pushpak Prakash, Founder & MD, Pushpak Group Pvt. Ltd., along with Principal Dr. Sanjay H.A, Faculty Coordinator Dr. Sathish Kumar K M, and Club President K. Ranjiv Krishnan.

The dignitaries emphasized the importance of innovation, collaboration, and leadership in engineering education. The program included a presentation of the club's vision, project demonstrations by members, and a technical quiz across multiple disciplines.

The A.R.M.S Club, a student-driven initiative, aims to promote creativity and hands-on learning in robotics, automation, embedded systems, programming, and research, establishing a strong foundation for future technical activities and interdisciplinary excellence.

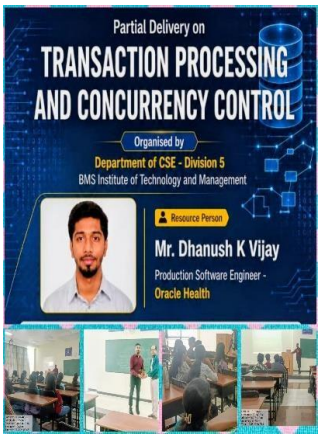

Seminars / Expert Talks/Partial Delivery Sessions

- CSE Division 5 organized a partial delivery session on "Transaction Processing and Concurrency Control" on 26.05.2026 for 4th Semester Sections. The session was delivered by Praveen A L, Founder & CEO of Digipix Technologies, providing students with valuable industry insights into database transaction management and concurrency control.

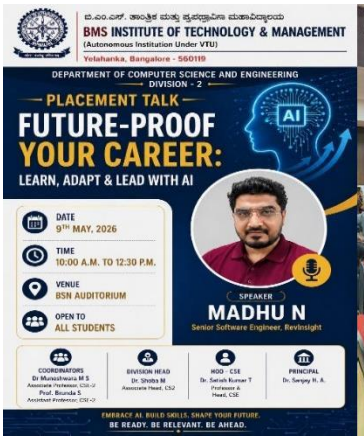

- CSE Division5 conducted a partial delivery session on "Transaction Processing and Concurrency Control" on 12.05.2026. The session was led by Dhanush K Vijay, who provided students with practical insights into transaction management, concurrency control mechanisms, and their implementation in modern enterprise database systems.

- The Department of Computer Science and Engineering (Division2) organized an expert talk on “Future-Proof Your Career: Learn, Adapt & Lead with AI” on 09.05.2026 at the BSN Auditorium. The session was delivered by Madhu N, who shared valuable insights on leveraging AI, continuous learning, and adaptability for career growth in the evolving technology landscape. The event was coordinated by Dr. Muneshwara M. S. and Prof. Brunda S.

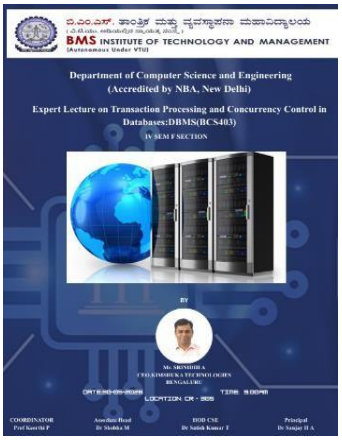

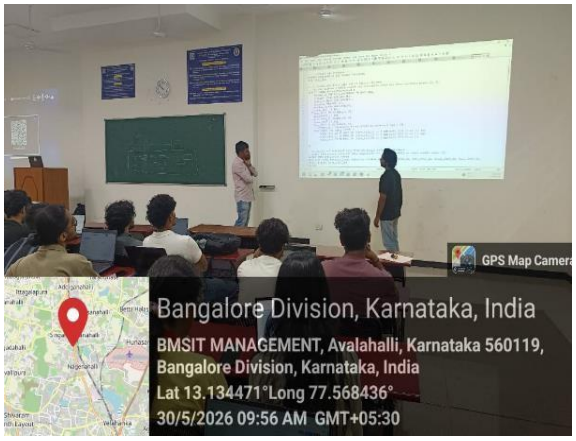

- The Department of Computer Science and Engineering (Division2) conducted a Partial Delivery Session on “Machine Learning” on 05.05.2026. The session was delivered by RangaVittala SR, Director of Institutional Research, VaYU California, and was coordinated by Prof. Brunda S. The session provided students with insights into machine learning and its real-world applications.

- The Department of Computer Science and Engineering (Division2) conducted a Partial Delivery Session on “Database Management System” for 4th Semester Section F on 30.05.2026. The session was delivered by Srinidhi A, CEO of Kimshuka Technologies, who shared practical insights into database systems and their industry applications. The session was coordinated by Prof. Keerthi P.

- The Department of Computer Science and Engineering (Division2) organized a Partial Delivery Session on “Transaction Processing and Concurrency Control” for 4th Semester Section D students on 30.05.2026. The session was delivered by Mahantesh C Angadi, who shared industry perspectives on transaction processing and concurrency control using practical examples from banking, e-commerce, and inventory management systems. The session was coordinated by Dr. Gireesh Babu C. N.

- The ECE Department organized an expert talk on “Modern Communication – Analog to Digital Transformation” on 27.05.2026 for 2nd Semester students of CSE 3, CSE 4, and CSE 7. The session was delivered by Dr. Ambika R and coordinated by Dr. Mamatha K. R., Prof. Chandraprabha R., and Prof. Shilpa Hiremath. The talk provided students with valuable insights into the evolution of communication systems from analog to digital technologies.

- The Department of Mathematics organized an expert talk on “Zeroing Neural Networks” on 04.05.2026 for IV Semester AI&ML and CSE students. The session was delivered by Ratikanta Behra, who provided insights into concepts such as matrix inverses, Moore–Penrose pseudo-inverses, and tensor fundamentals. The event was coordinated by Dr. Nikki Kedia and Prof. Puneetha.

- The Department of Mathematics organized an expert talk on “Mathematical Framework of Tokenization in AI” on 29.05.2026 for AI&ML students. The session was delivered by Mithun Gowda, who explained the mathematical foundations of tokenization in Large Language Models (LLMs) and its role in transforming textual data into numerical representations for AI applications. The event was coordinated by Dr. Shankar Narayan and Dr. Varun V. L.

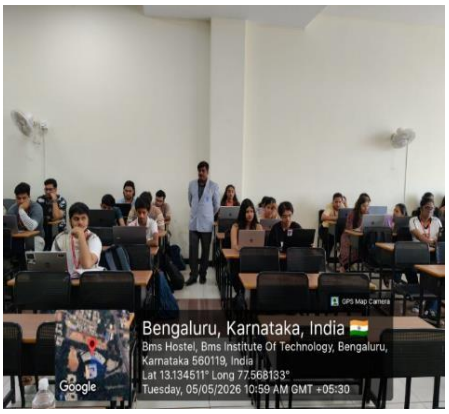

- The Department of MCA organized a techincal session on “From ChatGPT users to AI Workflows” by Mr.Harshit Choudhary, Director, Morgan Stanley and Mr.Prabal Garg, Head, AI Enablement, Certometer on 13.05.2026 at the BSN Auditorium, BMSITM.
- The Department of CSE (Division 4) organized a partial delivery session on Microcontrollers (IoT Application Development) for 4th Semester L Section on 04.05.2026. Prof. Raghuram Shivram conducted three interactive sessions covering fundamental concepts, practical applications, and emerging trends in microcontroller-based IoT development.

- A Skill Development Program (SDP) on Analysis and Design of Algorithms was conducted on 05.05.2026 for 2nd Year CSE-12 Section students of Division 4. Mr. Mallikarjuna G D, Founder & Director of SNIPE IT Solutions, delivered the session to 40 students, covering key algorithm design techniques and their real-world applications.

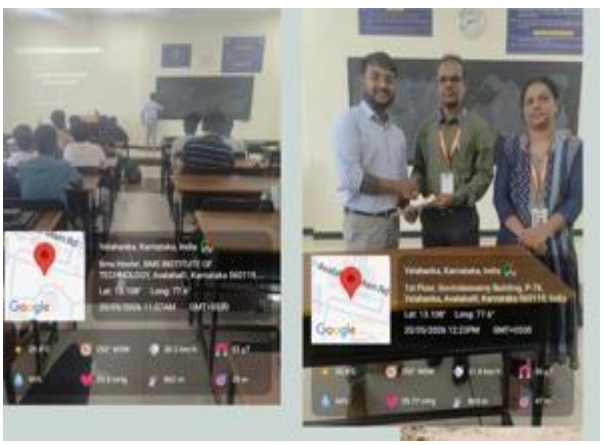

- A partial delivery session on Microcontrollers (IoT Application Development) was conducted for 4th Semester CSE10 Section of CSE Divion4 on 05.05.2025. The session provided students with insights into microcontroller concepts and their applications in IoT systems, enhancing their practical understanding of IoT application development.
- A series of LaTeX training sessions were conducted by Mr. Charan Kumar for first-year CSE students. The sessions were held for CSE 10 on 13.05.2026, CSE 12 on 15.05.2026, and CSE 11 on 18.05.2026. The training focused on report formatting, document preparation, and the effective use of LaTeX templates for project and report writing, equipping students with essential technical documentation skills.

- A Skill Development Program (SDP) on Analysis and Design of Algorithms (ADA) was organized on 20.05.2026 for 4th Semester CSE students of Division 4. The session was conducted by Mr. Souradrita Sarkar, Software Engineer-II, JP Morgan Chase, who shared insights on algorithm design techniques, optimization strategies, problem-solving methods, and their practical applications. The speaker also highlighted the significance of ADA concepts in technical interviews and placements.

- The Department of CSE (Division4) organized a partial delivery session for the DBMS course on 15.05.2026 for 4th Semester K Section students. The session was conducted by Mr. Mahantesh C. Angadi from Saturam Infosys Pvt. Ltd. and featured a hands-on workshop on transaction processing and concurrency control. The interactive session provided students with practical insights into managing transactions and concurrency in real-world database environments, enhancing their understanding of DBMS concepts.

- The Department of CSE (Division4) organized a partial delivery session for the DBMS course on 21.05.2026 for 4th Semester J Section students. The session was conducted by Mr. Praveen A. L., Founder and CEO, Digipic Technologies, and included a hands-on workshop on transaction processing and concurrency control. The interactive session helped students gain practical insights into managing transactions and concurrency in real-world database systems.

- The Department of CSE conducted a Partial Delivery Session on DBMS – Transaction Processing and Concurrency Control on 05.05.2026 for Fourth Semester CSE students (Division1). Mr. S. C. Arham, Full Stack Engineer at Blackhawk Network, delivered the session, which was attended by 120 students. The event was coordinated by Prof. Arpitha S and Prof. Chaitanya V.

- The Department of AIML, BMSIT&M, organized a session on “Getting Started with Salesforce” on 15.06.2026 in association with Salesforce. The event featured expert talks and witnessed enthusiastic participation from students across branches, offering insights into the Salesforce ecosystem, industry trends, and cloud career opportunities. The session provided valuable exposure to emerging technologies and professional pathways.

- The Department of AIML organized a technical session on “Navigating Algorithmic Complexity through Backtracking and Branch and Bound” on 29.06.2026 for IV Semester students as part of the Analysis and Design of Algorithms (ADA) course. The session was delivered by Mr. Shreyas Bharadwaj, Managing Director, Bambhari Private Limited, who provided insights into problem-solving techniques, optimization strategies, and intelligent search methods using backtracking and branch and bound approaches.

- The Department of AIML, BMSIT&M, organized a technical session on “Transaction Management and Concurrency Control” on 22.05.2026 at the BSN Auditorium. The session was delivered by Mr. Dhanush K. Vijay, Production Software Engineer, Oracle Health, who provided insights into transaction processing, concurrency control, and data integrity in database systems. Students gained practical understanding of key DBMS concepts including ACID properties, locking mechanisms, deadlocks, and isolation levels.

Students Achievements

- Mr. Debayan Ghosh (USN: 1TE24CS097), from CSE Division5, along with his teammates from CSE Division4, won the Best Project Award in the IoT Track at NMIT Hacks 2026, held from 8th to 10th May 2026. Their project, *Silver Storm System*, was recognized for its technical innovation, domain relevance, and effective implementation, earning the team a cash prize of ₹10,000. This achievement showcases the students’ excellence in developing impactful IoT-based solutions.
- Manish Thakur (USN: 1BY25CS173), a 2nd Semester student from Section E, participated in “BOTFORGE – Build Your Own AI Chatbot with RAG Pipeline”, organized by the OS Council on 06.05.2025 at the BSN Auditorium, Lab Block. The event provided participants with hands-on exposure to AI chatbot development and Retrieval-Augmented Generation (RAG) technologies.

- Vansh Baranwal (USN: 1BY25CS323), a 2nd Semester student of CSE Division2, secured Second Place at Hacksprint 6.0, held on 23.05.2026 at PES College of Engineering. His outstanding performance earned him a cash prize of ₹6,000, highlighting his problem-solving skills and technical proficiency.

- A team of first-year CSE Division 2 students—Eshaan Agrawal, Ashutosh Patel, Aditya Chauhan, and Ryan P—won the First Prize at Hackverse 2.0 on 30.05.2026. The team was recognized for developing an innovative solution to a real-world problem, showcasing their creativity, teamwork, and technical skills.

- Nithish K. S, a student of the Department of Electronics and Communication Engineering (ECE), presented a research paper titled “Real-Time Aquaponics Monitoring with Gamma-Corrected Video Streaming and Remote Management” at RECAPP 2026 held on 23.05.2026 at Indian Institute of Technology Palakkad.
- A team of ECE students comprising Ahay Krishna, Shwetha C., Tanvi Sai Vella, and Yuktha secured Second Place at the Bio Nexus Hackathon on 11.05.2026. The team's achievement reflects their innovation, teamwork, and problem-solving skills in addressing real-world challenges through technology-driven solutions.

- A team of first-year students from the Department of Electrical and Electronics Engineering (EEE)—Mohammed Zaid, Darwin P. K., M. Rahul, and Bhavesh Velkuru Sundara Rajan—won the First Prize at Avinya 2.0 held on 15.05.2026. Their project, JeevanCare, was recognized for its innovative use of AI in supporting medical diagnosis and emergency healthcare response, demonstrating the team's creativity, technical skills, and problem-solving abilities.

- Ms. Manasa R of IV Semester MCA is selected for the position of Teaching Assistant in the Department of CSE/AI&ML/CSBS in BMS Institute of Technology & Management.
- Mr.Gnanesh K C, Mr. Basavaprabhu Kudenatti, Mr.Prajwal Kumar Ponarkar and Mr. John D’Souza of II Semester MCA secured First Place in the Treasure Hunt event at the technical fest Instellation 3.0, organized by DSATM on 06.05.2026 and 07.05.2026.
- Students of IV Semester MCA excelled in the NPTEL Online Certification Program on Human–Computer Interaction (January–April 2026). Mr. Karthik B S secured a perfect 100% score and ranked among the Top 5% of learners, while Mr. Prajwal Tirumala Bhat achieved 99% and ranked in the Top 2%. Mr. MD

Nawaz and Mr. Darshan K N scored 98% each, placing them among the Top 5% of learners. The department congratulates the students on their outstanding achievement.

- Mr. Mithun R Gowda, a Civil Engineering student at BMS Institute of Technology and Management, received the Best Paper Award at the 4th International Conference on Recent Trends in Materials Science & Devices (ICRTMD 2026) held from 06–08 April 2026 in Haryana. He was recognized for his research paper on GGBS-based mortar, presented in the Student Speakers Technical Session.
- Harsh Kumar (1TE24CS120), Tushar Gururaj (1TD24CS321), Debayan Ghosh (1TE24CS097), and Atulya Kulshrestha (1TE24CS076) of 4th Semester CSE, Division-4, K Section, emerged as the IoT Track Winners at NMIT Hacks 2026, a 48-hour hackathon held from 08.05.2026 to 10.05.2026. Their team secured a Top 10 position among 4,400+ submissions and won a cash prize of ₹10,000. Their project, a Smart QoS Layer for Industry 5.0 Networks, was highly appreciated by the judges for its innovation and potential industry impact.

- Mr. Mithun R Gowda, a Civil Engineering student at BMS Institute of Technology and Management, received the Best Paper Award at the 4th International Conference on Recent Trends in Materials Science & Devices (ICRTMD 2026) held from 06–08 April 2026 in Haryana. He was recognized for his research paper on GGBS-based mortar, presented in the Student Speakers Technical Session.
- Javeria Taj and Shaik Mohammed Mustaqeem Rafi, 4th Semester AIML students of BMS Institute of Technology and Management, secured First Place in the Render Sponsored Track at NMIT Hacks 2026 held on 08.05.2026. The team developed an innovative cloud-based solution and won $1,000 worth of Render Credits, showcasing strong technical expertise, innovation, and problem-solving skills in a competitive environment.

Industrial Visit

- The Department of Electrical and Electronics Engineering (EEE) organized an industrial visit to Vignesh Vidyut Controls on 29.05.2026 for 48 students of 4th semester. During the visit, students gained practical exposure to transformer manufacturing processes, including core assembly, coil winding, oil filling, and testing. Interactions with industry experts provided valuable insights into transformer design, quality standards, and industrial practices, helping bridge the gap between classroom learning and real-world engineering applications.

- The Department of Electronics and Communication Engineering (ECE) organized an industrial visit to the Agri Startup Conclave 2.0 at the University of Agricultural Sciences, GKVK Campus, on 25.05.2026. A group of 25 second-semester students, accompanied by Dr. Anitha M., Dr. Anna Merine George, and Prof. Vivekananda Upadhye, participated in the visit, gaining insights into agri-tech innovations, entrepreneurship, and emerging technologies in the agricultural sector.

- The Department of AIML, BMSIT&M, conducted an industrial visit to eMudhra Limited on 04.05.2026 for 4th semester students. The visit, attended by 56 students and 4 faculty members, included interactive sessions and a data centre tour, providing valuable industry exposure and insights into emerging technologies and career opportunities.

Students Workshops/Events Conducted/ Organised

- The Department of Computer Science Engineering – Division 5 organized a three-day workshop on "Hardware Programming with Raspberry Pi Pico W for Smart Systems" from 19th to 21st May 2026. Conducted for 4th Semester students of Sections M, N, and O, the hands-on sessions were held in Rooms 504, 505, and 506, Lab Block. The program provided practical exposure to hardware programming and smart system development using the Raspberry Pi Pico W platform.

- The Department of Computer Science and Engineering – Division 5 organized a Cyber Xplore Workshop on 21.05.2026 for 2nd Semester Section 14 students. The workshop was conducted by M.Tech Cybersecurity 2nd Semester students as part of a cybersecurity skill enhancement initiative, providing participants with exposure to fundamental cybersecurity concepts and practical security practices.

- The Departments of CSBS and MBA successfully organized a workshop on "Raising Capital and Finance Management for Start-ups" on 21.05.2026. The session was delivered by Murrali R Chakravarthy, who provided VI Semester CSBS students with practical insights into fund-raising strategies, financial planning, and effective finance management for start-up ventures.

- The Department of Electronics and Communication Engineering (ECE) successfully organized its Project Exhibition on 30.05.2026, showcasing the innovative ideas, technical expertise, and creativity of students. The event reflected the department's commitment to academic excellence and hands-on learning.

- Prof Shilpa Hiremath, Assistant Professor, conducted a Poster Presentation Activity for Fourth Semester ECE 'C' Section students on 26.05.2026 as part of the "Universal Human Values" course.

- The ECE Department successfully organized the Bio Control Nexus Hackathon on 11.06.2026 to encourage students to develop innovative, technology-driven solutions for contemporary healthcare challenges. The event witnessed the enthusiastic participation of 217 students, whose engaging discussions, creative project presentations, and collaborative efforts reflected a strong spirit of innovation, scientific inquiry, and teamwork.

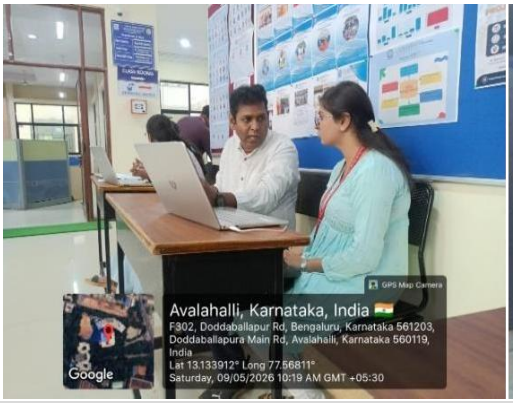

- The Department of Electrical & Electronics Engineering (EEE) successfully organized a workshop on "Learn LaTeX: A Complete Guide for Beginners" for 4th Semester students on 21.05.2026. The session was delivered by Prakash G L, who introduced students to LaTeX document preparation, formatting, mathematical equations, tables, figures, references, and technical report writing. The workshop was coordinated by Prof. Manjula B. K. and provided students with valuable skills for academic and professional documentation.

- The Department of MCA successfully organized MCA Project Open Day 2026 on 25.04.2026 and 09.05.2026, providing students with an opportunity to showcase their innovative projects and technical skills. The event was evaluated by industry experts, including distinguished alumni such as Sridhar, Akshay Kumar Dave, Ashwini N, and Alok Kumar. The event fostered industry-academia interaction, knowledge sharing, and collaborative learning, while receiving appreciation for the students' creativity and problem-solving capabilities.

- The Department of MBA successfully organized its flagship management fest, “Varchasva – Luminox 2026,” on 14th and 15th May 2026. The event was inaugurated by Srutha Keerthi, with the presence of Dr. Sanjay H. A., Principal, and Dr. Anil G. N., Vice-Principal. The fest featured a wide range of management and cultural events, including Best Manager, Finance, Marketing, Human Resource, Business Analytics, Business Quiz, Corporate Walk, and Treasure Hunt. Attracting around 70 teams from leading colleges across Bengaluru, the two-day event fostered innovation, strategic thinking, and teamwork. The fest concluded with Amity University winning the overall championship trophy.

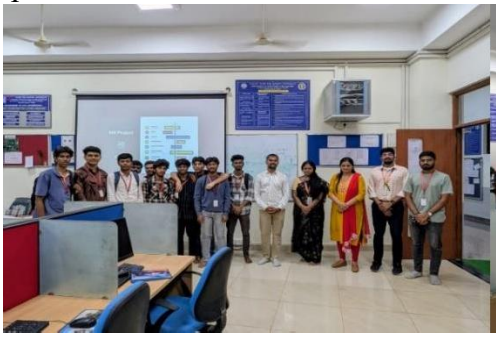

- The Department of MCA organized Hackverse 2.0, a 12-hour hackathon, on 30.05.2026, following a preliminary online round held on 26th and 27th May 2026. Out of 35 registered teams, 25 teams qualified for the grand finale. The event featured two levels of on-the-spot challenges and was evaluated through a blind review process by industry experts Mr. Suresh Chikkahalli and Mr. Girish T. Two MCA teams secured the Second and Third prizes for their innovative solutions addressing SDG 5: Gender Equality, with a focus on women’s safety.

- The Department of Civil Engineering, BMSIT&M, successfully organized a hands-on workshop on Microsoft Project, providing students with practical project management skills and exposure to industry-standard tools. The event was coordinated by Mrs. Shobha R, Dr. Deepak M S, and Dr. Athiyamaan V, and featured expert guidance from Dr. Rakshith B D, whose insights contributed to the success of the workshop.

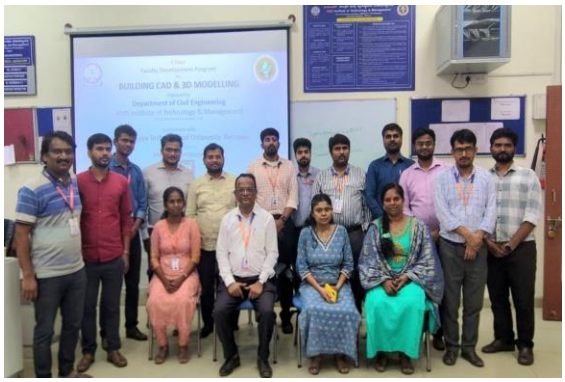

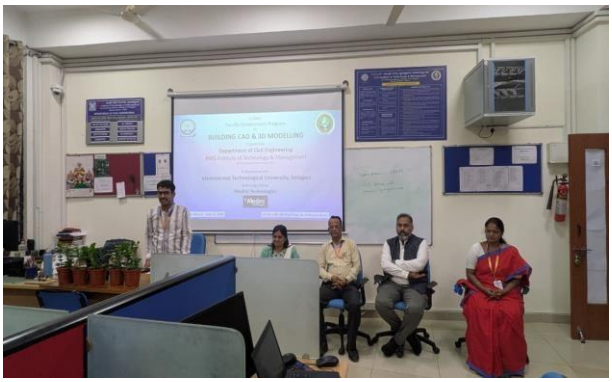

- The Department of AIML organized the AI Fusion Hackathon Challenge on 15.06.2026 for 4th Semester students in collaboration with Bambhari and 0x.Day. The event provided a platform for developing AI-based solutions to real-world problems and was evaluated by an expert jury from academia and industry.

FDP Organised

- The Department of Civil Engineering, BMS Institute of Technology & Management, organized a 5-Day Faculty Development Program on "Building CAD & 3D Modelling" from 11.05.2026 to 15.05.2026 in association with VTU, Belagavi, and Medini Technologies. The program was conducted under the guidance of Dr. G. Aruna and Dr. Lalit Kumar Gupta, with coordination by Prof. Shobha R., providing participants with valuable insights into CAD and 3D modelling techniques.

- The Department of Civil Engineering, BMSIT&M, successfully launched the IEEE GRSS Student Chapter on 08.05.2026 at the BSN Auditorium. Conducted under the guidance of Dr. Aruna G., the event featured the official launch ceremony and an interactive Geo Quest gaming session. The program encouraged student engagement in geoscience, remote sensing, and emerging technologies, promoting technical and professional development.

Professional/Club Activities

- Dr. Aparna K, Professor, Department of MCA, has submitted a proposal to AICTE-Vibrant Advocacy for Advancement and Nurturing of Indian Languages (VAANI) along with Dr. P Ganesh, Professor, Department of MCA, as the Co-PI.
- The Alterino Club successfully organized "Build & Conquer 3.0," an 8-hour Software and Hardware Hackathon, on 22.05.2026. The event provided a platform for students to showcase their innovation, creativity, teamwork, and technical problem-solving skills through the development of impactful prototypes and solutions.

- The Dataverse Club, Department of CSE, conducted a One-Day Skill Development Program on Power BI on 15.05.2026 for first- and second-year engineering students. The program provided hands-on exposure to data visualization, dashboard creation, and business intelligence using Power BI.

- The Asymptotes Mathematics Club organized "Sigma Speak," an extempore mathematics lecture competition, on 26.05.2026. Second-semester engineering students presented on advanced topics including the Fibonacci Series in Nature, Frieze Patterns, Vector Spaces in Data Compression, Differential Equations, and Gradient Descent. The event fostered mathematical curiosity, technical communication, and critical thinking, and was highly appreciated by participants for providing a platform to explore and share innovative mathematical ideas.

- The Asymptotes Mathematics Club organized an expert talk on "LangGraph: A Mathematical Perspective" on 29.05.2026. The session was delivered by Karthik U, who discussed the mathematical foundations of LangGraph and its role in orchestrating AI workflows. The talk provided AI&ML students with valuable insights into graph-based architectures, state transitions, decision-making processes, and intelligent agent interactions in modern AI systems.
- The Department of Mechanical Engineering, in association with the Intellectual Property (IP) Cell, organized an invited talk on "Protection of IPR and IP Management for Startups" on 27.05.2026. The session was delivered by Srikanth Venkatesh, Head of IP Core Services at Tata Consultancy Services, Bengaluru. The event was coordinated by Prof. Praveen Kumar T. N., Associate Professor, and Prof. Sundaresh S., Assistant Professor, and provided Mechanical Engineering students with valuable insights into intellectual property rights and IP management for startups.
- The Headspace Club, Department of MCA organized Tech Quiz and Fun Networking events under the name "Wrong Turn" on 08.05.2026 with the active participation of II Semester students.

- The HeadSpace Club of MCA, BMSITM successfully organized TechRachana 2026, a Technical Article Writing competition on LinkedIn, from 22.04.2026 to 25.04.2026. The event aimed to enhance students' technical writing, language, and communication skills while helping them build a stronger professional presence on LinkedIn. The results were announced on 30.05.2026, with Mr. M. Thanmay securing the First Prize (₹1,500), Mr. Harish R T winning the Second Prize (₹1,000), and Mr. Rahul Jangir receiving the Third Prize (₹500). The winning articles, along with the next seven best entries, will be featured in the upcoming department newsletter.

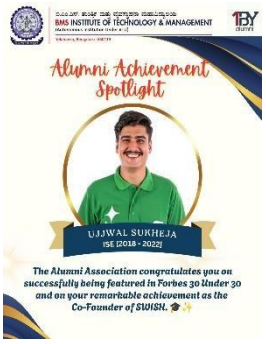

- The Department of Civil Engineering inaugurated the CIVITRONICZ Club and conducted CIVITHON 2026 on 26.05.2026. The event was graced by Mr. Karthik Rangarajan, Founder, CEO, and CTO of Agam Robotics. In the hackathon, Team Phoenix Code won the first prize for their Smart Infrastructure Health Monitoring System, while Team Crack Trackers secured the second prize for StructGuard AI: Intelligent Digital Twin.

Alumni Interaction

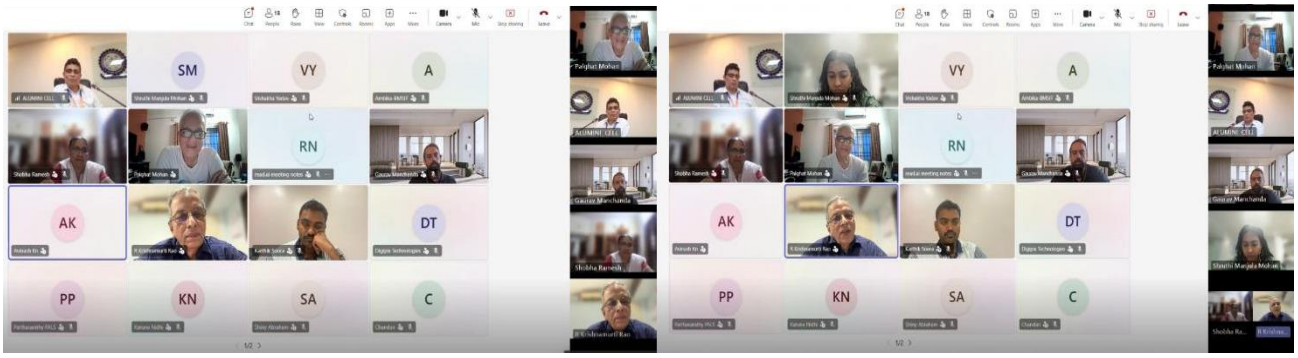

- BMS Institute of Technology & Management proudly congratulates Ujjwal Sukheja, an alumnus of the Department of Information Science and Engineering (ISE) (2018–2022), on being featured in the prestigious Forbes 30 Under 30. As the Co-Founder of SWISH, his achievement reflects the institute's commitment to fostering innovation, entrepreneurship, and leadership.

- The institute witnessed enthusiastic alumni participation during May 2026, with 17 alumni visiting the campus for mentorship sessions, panel discussions, academic engagements, and certificate collection. Their visits reinforced the strong and lasting relationship between the alumni community and the institution.
- As part of the Alumni Talk Series, CSE Division 5 organized a session on "CRM & Digital Marketing: Trends, Evolution, and Future" on 12.05.2026. The talk was delivered by Ms. Vydehi M. R., an alumna of the ISE Department (2015 Batch), who shared insights into current trends and future opportunities in CRM and digital marketing.

- The Alumni Cell successfully conducted the 5th Alumni Advisory Board Meeting on 06.05.2026. The meeting focused on the PALS Initiative, alumni engagement, institutional collaborations, and strategies to strengthen alumni communication and governance. Members actively shared suggestions for future initiatives and reaffirmed their commitment to supporting the institute through sustained alumni involvement.

International Journal/ Conference Publication/Book Chapters/Books

International Journal

- K, Ashwitha, Shetty, S., Byatarayanapura Venkataswamy, S. et al. Feature-enhanced RocketStack ensemble for multi-class wind turbine blade crack severity prediction. Discov Artif Intell 6, 436 (2026). https://doi.org/10.1007/s44163-026-01117-2.

- Dr. Dhanalakshmi B K published a research paper titled "Blockchain-Based Decentralised Framework for Secure and Transparent Land Registration: Enhancing Data Integrity and Reducing Intermediaries" in the proceedings of the International Conference on Communication and Computational Technologies, highlighting blockchain-based solutions for secure land registration.
- S. Chandrappa, Prithviraj, I. S. Rajesh, K. Madhusudhana, K. R. Sharath, and A. Pai published a research article titled "A Medical Image-Based Computational Framework for Electromagnetic Field Mapping and SAR Estimation in Biological Tissues" in the Journal of Nano- and Electronic Physics, Vol. 18, No. 2 (2026), Article No. 02005.

International Conference

- Dr. Jai Arul Jose G. and Dr. Muneshwara M. S. published a research paper titled "AI-Based Predictive Vulnerability Assessment Framework in 6G Network Infrastructures" in the 2026 International Conference on Current Trends in Advanced Computing (ICCTAC). The paper was published by IEEE and assigned the DOI 10.1109/ICCTAC68277.2026.11524525 on 22.05.2026, contributing to advancements in AI-driven cybersecurity for next-generation networks.

- Yashaswini, C. S., Mahipal Bukya, Nisha Prasad, Babu Naik Gugulothu, Srinivas Yelisetti, and Rajesh Kumar. "Intelligent Energy Disaggregation and Optimization in Smart Homes Using NILM and AI-Based Predictive Analytics." Pasha, "Post-Quantum Cryptography Linux Distribution," 2026 International Conference on Next-Gen Quantum and Advanced Computing: Algorithms, Security, and Beyond (NQComp), Bangalore, India, 2026, pp. 323-328, doi: 10.1109/NQComp68334.2026.1149772.

Book Publication:

- Asst. Prof. Pavan G. Malghan, Department of Electronics and Communication Engineering (ECE), co-authored the book "Intelligent Electronics: AI and IoT for Modern Applications" (2026) along with Megha Chaturvedi, Dr. Rahul Koshti, Mr. Kuldeep Mishra, and Dr. Ajay Dadhich. Published by Technical Press, the book carries the ISBN: 978-81-69069-86-1 and focuses on the integration of Artificial Intelligence and IoT in modern electronic applications.
- Dr. Nagamadhu M., Department of Mechanical Engineering, published three book chapters in the book 3D Printing of Polymer Composites (ISBN: 9780443403408), published by Elsevier. The chapters are titled "Recycled Materials in Polymer Additive Manufacturing: A Cost-Effective Approach," "Influence of Organic/Inorganic Fillers on the Performance Behavior of Three-Dimensional Printing of Composites: Pros and Cons," and "Thermoplastic Matrix for Three-Dimensional Printing: Types, Filament/Component Manufacturing, and Characterization." These contributions highlight advancements in sustainable materials and additive manufacturing technologies.

Patents published/Granted

- A Design Patent titled "An AI Powered Reader for Visually Impaired" was granted to Dr. Shivakumara T, Associate Professor, Department of MCA, on 08.05.2026.
- A Design Patent titled "Pocket AI-Based Language Translator" was granted to Dr. Shivakumara T, Associate Professor, Department of MCA, on 29.05.2026.
- Dr. HemaMalini B H, Professor, Department of AIML, has been granted a patent titled "AI Based Driver Drowsiness Detecting Device" with Design No. 480321-001. The patent was issued on 09.02.2026, with the application dated 14.11.2025, recognizing her contribution to innovation in AI-based safety systems.

NSS Activities

The NSS Unit of BMS Institute of Technology and Management, in collaboration with Green Circle, organized a Plogging Drive at Avalahalli Village to promote environmental awareness and cleanliness. A total of 196 students participated in the drive, collecting plastic waste from roadsides and public areas while also creating awareness among villagers about the harmful effects of plastic pollution and the importance of eco-friendly alternatives.

The activity was conducted under the guidance of Dr. Manoj H. M. and Dr. Babu Naik, NSS Programme Officers. The drive successfully encouraged community participation, environmental responsibility, and sustainable waste management practices among both students and residents.

BICEP Activities

- Under IIC 8.0 (A BICEP Initiative), CSE Division 5 conducted a session on "Start-Up Legal & Ethical Steps" on 08.05.2026. The session was delivered by Garvit Garg, who shared insights on business registration, legal compliance, intellectual property rights, and ethical entrepreneurship, helping students understand the fundamentals of building responsible start-ups.

- Mr. Pushpak Prakash, Founder & MD, and Mr. Abhishek P. Pushpak, Director of Pushpak Aero Space India Pvt Ltd, visited the BMSIT&M campus on 21.05.2026. During the visit, they interacted with the BICEP team and shared insights on entrepreneurship and innovation. They also expressed interest in mentoring student startups, supporting promising ventures through funding, and exploring future collaboration with BICEP.

- Dr. Jayashree H., Technologist and Engineering Development Leader at AMD, visited BMSIT&M on 27.05.2026 to discuss collaboration with BICEP. The focus was on using AMD technologies in AI and HPC, including Xilinx FPGA platforms, to support student projects, research, and hands-on training.

- Dr. Seema Singh, Professor, ECE, BMSIT&M and Founder of DostBin Solutions, published an article in *The Industry Outlook* (May 2026) on decentralized waste management. The work highlights composting and biomethanation as sustainable solutions for India's waste challenges and showcases the startup's contribution to sustainability and the circular e[conomy.

Decentralized Waste Management: India's Missing Link to Sustainability

Dr Seema Singh, Founder & Director, Dostbin Solutions

Text Size: - +

*In an interaction with Industry Outlook, **Dr. Seema Singh, Founder & Director, Dostbin Solutions**, highlights how decentralized waste management is emerging as **critical urban infrastructure in India**. Driven by source segregation, on-site processing, and policy support, adoption is rising despite challenges like behavioral resistance and **infrastructure gaps**. She emphasizes public-private collaboration, citizen participation, and a circular economy approach to scale sustainable, resource-efficient waste solutions nationwide.*

*Dr. Seema Singh is a sustainability innovator and **waste management** expert with over 22 years of experience. She specializes in **decentralized waste technologies**, circular economy solutions, and environmental engineering, with strong expertise in innovation, research, product development, and community-driven sustainable practices.*

What are the current trends shaping decentralized waste management adoption across India, particularly in urban and semi-urban regions, and how are they evolving?

- As part of BICEP's outreach initiatives, the team visited SJCE, Mysuru on 29.05.2026 to engage with students and faculty on innovation, startups, and incubation support. The session highlighted entrepreneurship programs, funding, and mentorship opportunities, encouraging students to develop innovative startup ideas and strengthening collaboration between SJCE and BICEP.

- The BMSIT&M team secured a place in the Top 10 among 4,400+ submissions and emerged as the IoT Track Winners at NMIT Hacks 2026, a 48-hour hackathon held at Nitte Meenakshi Institute of Technology, Bengaluru. The team developed a Smart QoS Layer for IoT Networks aligned with Industry 5.0, showcasing innovation in network performance and resource management. They received a cash prize of ₹10,000, with BICEP supporting their participation through sponsorship of project components and travel expenses.

- A Pre-Incubation Review Meeting was held on 07.05.2026 at BICEP Conference Hall with four teams presenting their ideas. Two teams opted for incubation support to further develop their ventures, while the remaining two were directed to the Innovation Cell for mentorship. The session was attended by BICEP incubation and innovation heads, who provided feedback and guidance to the participants.

- BICEP, in collaboration with the Institution's Innovation Council (IIC), organized BULLISH – The Market-First Hackathon, a 48-hour innovation challenge emphasizing product development, market validation, and user acquisition. The event received 32 registrations, with 14 teams actively competing across a structured three-phase format comprising an on-campus kickoff, remote sprint, and grand finale. Participants built and launched MVPs while demonstrating real user engagement and market traction. Team Dexter secured the 1st prize, followed by Team Fulcrum and Team Prepnext, with additional special recognitions for other outstanding participants.

NCC Activities/ Sports Activities

NCC Activities

1. **IDSSC Firing Practice 01.05.2026 to 07.05.2026**
   Cadet Pranay Baswaraj took part in the IDSSC Firing Practice organized under the National Cadet Corps (NCC) from 01.05.2026 to 07.05.2026. The program offered hands-on training in firing practice while enhancing discipline, focus, and overall cadet development.

2. **Pre IDSSC – II Camp 08.05.2026 to17.05.2026**
   Cdt. Pranay Baswaraj participated in the Pre IDSSC–II Camp conducted under the NCC from 08.05.2026 to 17.05.2026. The camp focused on discipline, physical fitness, and leadership development, providing valuable training and exposure.

3. **AITSC Selections for JDFS & MR 06.05.2026 to 13.05.2026**
   The AITSC Selections for JDFS and MR were conducted under the National Cadet Corps (NCC) from 06.05.2026 to 13.05.2026. Cadets actively participated in the selection process, demonstrating their skills, discipline, and commitment throughout the event.

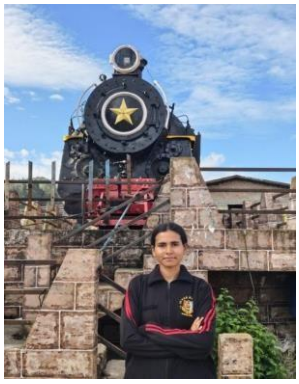

4. **Drone Training Capsule 12.05.2026 to 13.05.2026**
   The Drone Training Capsule was conducted under the National Cadet Corps (NCC) on 12.05.2026 and 13.05.2026. The program provided cadets with practical exposure to drone technology, operations, and applications, enhancing their technical knowledge and awareness of emerging unmanned aerial system.

5. **Nilgiri Trekking Camp– 16.05.2026 to 23.05.2026**

Cdt. Monalisa K participated in the Nilgiris Trek–II Camp held at Udhagamandalam from 16.05.2026 to 23.05.2026 under the NCC. The camp provided valuable experience in trekking, adventure activities, and teamwork.

6. **AITSC Obstacle Training from 18.05.2026 to 31.05.2026**

- Cadets of BMS Institute of Technology & Management participated in the Obstacle Training Selection Camp conducted under the National Cadet Corps (NCC). The camp focused on enhancing physical fitness, agility, teamwork, and confidence through a series of obstacle-based training activities.

7. **GP-B Map Reading Camp from 20.05.2026 to 24.05.2026.**

Cadets from BMS Institute of Technology & Management participated in the GP-B Map Reading Camp held under the NCC from 20.05.2026 to 24.05.2026. The camp provided practical training in map reading, navigation, and field orientation skills.

8. **AITSC Health & Hygiene and Best Cadet Selections held on 21.05.2026**

NCC cadets from BMS Institute of Technology & Management participated in the Best Cadet and Health & Hygiene Selections conducted as part of the AITSC selection process, gaining valuable exposure and showcasing their discipline, confidence, and NCC training.

9. **IDSSC 10M Air Pistol Selections held on 21.05.2026**

NCC cadets from BMS Institute of Technology & Management participated in the IDSSC Group Team Selections for 10 M Air Rifle and 10 M Air Pistol events under the NCC. The final trials were held on 22.05.2026 at Ekalavya Shooting Academy, where cadets demonstrated their marksmanship, precision, and focus during the selection process.

Sports Activities

- The VTU Bengaluru North Division Hockey (Men) Tournament was successfully organized by the college on 08.05.2026 at Chikkaballapura Stadium, Chikkaballapura. The team delivered a strong performance and secured the Runner-Up position in the tournament.
- The Men's Cricket Team of the college secured the Runner-Up position at the VTU State-Level Cricket (M) Tournament 2026–27, held from 12.05.2026 to 15.05.2026 at Jawaharlal Nehru National College of Engineering, Shivamogga.

- Gokul S, a student of 6th Semester B Section, represented our college Volleyball team, which emerged as Champions in the VTU Inter-Collegiate North Division Volleyball Tournament held at Acharya Institute of Technology in May 2026. With this outstanding performance, the team has also qualified for the VTU State Level Volleyball Tournament scheduled to be held at Siddaganga Institute of Technology on 07.05.2026.

- K P Somaiah, a student of 4th Semester C Section, represented our college Hockey team, which secured the Runners-Up position in the VTU Inter-Collegiate North Division Hockey Tournament held at DYSS Stadium and organized by BMS Institute of Technology and Management on 08.05.2026. The team has also qualified for the VTU State-Level Hockey Tournament scheduled to be held at ACS College on 11.05.2026.

Placement Activities

The placement season for the 2027 batch commenced on 01.05.2025, and as of 31.05.2026, a total of 34 placement and internship offers have been secured. During this period, 10 companies visited the campus, including 4 new companies and 2 startups. The highest CTC offered was 14 LPA, with 12 offers above 8 LPA. A total of 34 students have been placed.
